

Ann Landers Says

The Ladies Told To Take it Easy

Dear Ann Landers: A friend of mine showed up at dinner party in a green sequin dress that resembled fish scales. She was wearing a yellow gold necklace — a life-like replica of a snake, complete with emerald eyes. From her ears hung a couple of jeweled turtles. To top it off she had a butterfly clip in her hair. She was a sight with all that animal life on her.

Later in the evening (after she had had a few drinks) she came over in a belligerent mood and said, "You haven't said anything about the way I look." I had had a few drinks, too, and replied, "I think you look hideous, now that you mention it."

Her husband caught her arm just as she was about to hit me. As he led her away she shouted, "You've always been a jealous cat. Don't ever speak to me again."

I really do like her in spite of her big mouth. We have been friends since high school. What do you recommend in a case like this? — E.T.

Dear E. T.: Both you ladies (?) ought to stick to ginger ale.

Dear Ann Landers: My 18-year-old sister got herself into a jam and had to go stay with my aunt who lives in Ohio.

This has knocked my family for a loop. Mom, who has been depending on her older brother for advice and help since our dad died three years ago, cries all the time.

Uncle is very strict and old-fashioned. He is making home a jail for my 17-year-old sister and me. (I am 15). He has told mom we shouldn't have any dates. We are allowed to go to school functions only if he drives us

over and comes to get us. Uncle said a girl should not go out with boys until she is ready to get married, and that means 21 years old. Please print your advice. If anyone ever needed help, we do.—PRISONERS AT HOME.

Dear Prisoners: Keeping girls cooped up is no way to insure good behavior. It usually produces opposite results.

Girls who feel restricted tend to go hog wild once they get loose. They are determined to do everything they have been told they should not do—just to "get even."

Summing up: High school girls should be permitted to date provided they are reliable and trustworthy. This means adhering to a curfew and going out only with boys who have been properly introduced to the family. (I hope this helps.)

Dear Ann Landers: I sure do get a kick out of your column. What is the matter with the wives in this country anyway? They are the most suspicious bunch of females in the whole world.

Almost every day some dizzy dame will write in and say, "I think my husband is fooling around but I'm not sure." Why do they always want to believe the worst of a guy?

I keep a razor in my locker and sometimes I shave before I leave for home. Mine is one of those heavy beards and I have to shave twice a day if I want to look right.

Whenever I do this my wife accuses me of meeting someone after work — especially if I come home a little later than the usual six o'clock. Aren't some women nuts? — SQUARE SHOOTER

Dear Shooter: Yes—and some men are a little nuts, too. What's so special about that ride home that you have to shave for it? Since your wife would rather see you home at six with a five o'clock shadow, why not make her happy?

ANN LANDERS' booklet, "How to Be Date Bait," gives sound and solid rules for teen-age dating. To receive a copy, enclose with your request 20¢ in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you, with your problems. Send them to her in care of this newspaper, enclosing a stamped, self-addressed envelope.

Vocational Nurse Need High Here

"The opportunities for vocational nurses are greater than ever, according to Roberta Lindberg, chairman of the nursing division of Harbor College.

There are many vacancies in local hospitals for men and women with this training with beginning salaries averaging \$325 a month, continued Miss Lindberg.

In a survey conducted by the National League of Nursing covering 607 schools from 50 states, Harbor College candidates were ranked sixth in medical surgical nursing among 46 California schools. They also ranked high in maternal and child-care.

Final day to apply for admission to any Harbor College course is Friday at 4 p.m. Further information may be obtained by phoning Miss Lindberg at the college, 835-1161.

SLEEK JET DEBUTS . . . Douglas Aircraft Co. unwrapped the DC-9 jetliner last Tuesday in ceremonies at the Long Beach facilities of the aircraft firm. The jetliner, designed for short-range operation, rolled off the line a full month ahead of schedule. The plane will carry 90

passengers at cruising speeds up to 560 miles per hour and will make jet service available on the short runs. Douglas Aircraft Co. has 58 orders and 44 options for the \$3.1 million plane, which is assembled at the Long Beach and Torrance facilities of the company.

Thomas Bows out as Chief Of Los Angeles Delegation

Assemblyman Vincent Thomas has announced that he has resigned his position as chairman of the Los Angeles City Legislative delegation in order that he may be able to devote his full time and efforts to the affairs of his own district.

In announcing his resignation, Thomas said, "It is imperative that the extension of the Harbor Freeway and its connection with the bridge be completed in order to provide the continued economy of the harbor area. I have

discussed the matter with the Department heads involved and have now received assurance that the matter will be placed before the Highway Commission within the next few months for the purpose of a complete review of the situation and to bring closer the date scheduled for the construction and completion of this freeway link."

OTHER MATTERS which Thomas said he feels requires his immediate attention include such things as helping

the local government bodies find ways and means to receive increased revenue while at the same time giving relief to property owners. "As a member of the Revenue and Taxation Committee, I intend to devote my efforts to finding a solution to this problem," Thomas continued.

Thomas expressed a keen interest in the problems of mentally retarded children, and expressed that he is in favor of creating regional diagnostic and counseling

centers to be placed within easy driving distance of every California family. "The mentally retarded program has lagged behind for many years, and it is necessary that we stimulate the creation of new services to meet the needs of the retarded," he said.

"OUR STATE constitution provides that education has a first lien on state funds," Thomas continued. "We must do everything possible to see that every child has the opportunity to acquire a good education."

"At the present time," Thomas stated, "the major programs before the legislature will be reapportionment, taxation, social welfare and education. It is my avowed intention to see that the harbor area receives full consideration of its needs in the establishment and enactment of legislation that will enhance its economy and growth, both present and future."

"I WILL continue to keep in close touch with the people of the 68th District who elected me to represent them, I will, from time to time, report to them on the progress of my legislative program," Thomas concluded.

Assemblyman Thomas has served as chairman of the Los Angeles delegation for the past two years. Assemblyman Robert S. Stevens of Santa Monica has been elected by the delegation to succeed Thomas.

FOOD COSTS RISE Retail food prices during 1964 have averaged a little more than 1 per cent above the same months of 1963. U. S. population was larger by about 1.4 per cent during the same period.

A Penny for your Thoughts

Agriculture is one of California's largest industries. On December 31, 1964 the U. S. Government terminated the Bracero program with Mexico. This act will affect everyone from the grower to the consumer. Growers say that not enough Americans are willing or able to do crop work. The Pennies Photographer asked several faculty members at Torrance High School: "What do you think of the domestic worker vs. Bracero controversy?"

James Stannard, U.S. Government teacher:

"I think that it was a good idea to discontinue the program and it shouldn't be reinstated. The government shouldn't make special exceptions to the law for a special group like the growers. If the pay is adequate the growers will find enough domestic help to do the work."

Garth Belknap, history teacher:

"I'm in favor of domestic help rather than Bracero. The use of domestic workers may well result in an increase in the cost of groceries for the consumer but I believe that the economy can handle it. This will also create jobs for people who need them."

Charles Slater, drama teacher:

"Eventually the Bracero program will have to be reinstated. There will not be enough American workers to fill the growers' needs. Not enough American workers will be willing to do this type of work for the wages that the growers will pay."

Catherine Cason, business teacher:

"The Bracero Program wasn't a bad thing for our country. I think that it was an example of constructive cooperation between Mexico and the U. S. It also created good-will between our two countries. I agree with Mr. Slater that there will not be domestic workers in number enough to fill the need."

DEALERS GREETED . . . On hand to supervise the grand opening of the new Russ Thor Volkswagen agency at 29410 Hawthorne Ave. were (from left) Don Burns, partner in the agency; Linda Kohn, Miss Torrance; dealer Russ Thor; and Mayor Albert Ison. Several hundred guests helped salute the grand opening at the agency's new showrooms.

COUNT MARCO SAYS

Profit by Your Beatings, Dearie

I caused some animosity when I wrote that there are times when a woman should not only be slapped but have her teeth scattered about the room like popcorn.

I explained my reasons, but because I said it you rose up in wrath and made unfriendly statements to me and my editors.

But aha! Three psychiatrists have come to my aid by proving me right.

Say they: Certainly marriages may actually be held together if the wife gets a good beating. According to one of the psychiatrists, "the aggressive act satisfies deep unconscious needs of both man and wife."

Such approval should come as

a pleasant surprise to many husbands.

Another psychiatrist said the husband is not vile, mean or an overbearing tyrant if he takes the belt or stick to you. Au contraire!

The good doctor explains that because he does it, he is usually a good provider, faithful to his wife and not desirous of a divorce.

As for you, the beaten one, you deserve it. In their studies the doctors have discovered that it serves to fill your needs, even though you may protest.

Also, your type is often that of a domineering wife, suffering a sense of guilt that can only be relieved by occasional beatings.

Too, the wife who gets beaten

is aggressive, masculine, masochistic and frigid. Well, my dears you must agree those are fairly acceptable reasons why you get your whacks.

Few of you ever complain to the police, taking your beatings in silence because in your heart you know you need them.

This is called by psychiatry "enjoying the thrill of being dominated."

However, if you wish a change, remember this No real woman ever needs a beating. She knows the formula of peace.

She's warm, lovable, not frigid, and hasn't the slightest bit of masculinity about her.

You could cut down on your blood flow and reduce the number of black and blue spots if you tried to be more like her.

Press-Herald Sunday Crossword

(Answer on Page B-3) SUNDAY, JANUARY 17, 1965

- DOWN**
- 1—Beast
 - 2—Proportion
 - 3—Reverence
